

REMARKS

Applicants respectfully elect species II related to FIGS. 6-10 (i.e., Claims 5-14) with traverse. Applicants respectfully submit that independent Claims 1 and 5 of species I and II, respectively, comprise first-color subpixels and second-color subpixels in common. Applicants further respectfully submit that the Examiner concedes that claim 1 is generic.

Thus, it is respectfully requested that the restriction requirement as to Claims 1-14 be withdrawn and allow the same to be examined on the merits. Applicants also acknowledge that upon allowance of a generic claim that Applicants will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141.

The requirement for restriction being the only issue raised in the present Office Action, this paper is fully responsive to the same. The Applicants hereby reserve the right to file a divisional application for any non-elected subject matter in this application.

In the event the Examiner has any queries regarding the presently submitted response, the undersigned respectfully requests the courtesy of a telephone conference to discuss any matters in need of attention. If there are any associated or additional charges with respect to this Response or otherwise, please charge them to Deposit Account No. 06-1130 maintained by Applicants' attorney.

Respectfully submitted,
